Application deadline: November 5, 2025, 11:59 PM EST

Applications must be submitted using the [Online Application Portal](#).

Email apdd@ssrc.org for questions.

The APDD Program's Research Policy Fellowship (RPF) is a six (6)-month grant offering up to \$12,000 in support of institutional affiliation, policy engagement, and writing in a regional or national policy think tank, institution, or civil society organization. Fellows will gain hands-on experience in the policymaking and advocacy processes, working closely with practitioner organizations to shape, evaluate, and influence peacebuilding policies at the national, regional, and continental levels.

Through the RPF, the program embeds a fellow in a policy institution to gain insights into its daily operations and support its in-house activities and events. The award provides the fellow with the opportunity to link their prior research to policy, advocacy, and practice, mobilize knowledge to inform or shape policy reforms, and/or propose actionable alternatives. Residency at the host institution for at least four (4) of the six (6) fellowship months is required.

Eligibility Requirements

This fellowship is open only to previous APN IRF award recipients (2021–2025) who are academics or practitioners currently based in Africa.

Application Requirements (Round 1)

Applicants must submit an application through the online portal consisting of the following components:

- Contact and Personal Information

 - o Duration of proposed project (not exceeding six months)

- o Specific policy dimension/policy framing of the research problem, and its relevance to peacebuilding mechanisms, policies, and practices in Africa
- o Preferred host policy institution for potential affiliation (optional)
